

# Healing Her Heart

Online Group Session for Women Facing Infertility

**“Why, God? Why me?”**

*“You want couples to have children-why not us?”*

*“I pray. I believe. So why do I still feel broken, forgotten... and so painfully alone?”*

**If you've ever asked these questions in the silence of your heart... you're not alone.**

## **Infertility brings more than physical pain.**

It can feel like spiritual abandonment — leaving you questioning your worth, your prayers, even your purpose. But you are not broken. You are not forgotten.

“Healing Her Heart” is a free, live, online group session designed for women like you — who love God, long for motherhood, and desire to heal body and soul.

**This is not therapy, nor a support group. This is an opportunity for a new start.**

You'll receive loving guidance to help you **shift the way you think, feel, and believe**, with practical strategies that will empower you to walk forward with peace, faith, and strength.

**Date:** check website below for next available date!

**Location:** Online via Zoom

**Register Now – It's Free!**

(but space is limited)

Led by **Stefania Bigi Alzati**, a Health and Wellness Coach specializing in infertility, this session is rooted in deep compassion born from her own painful journey through infertility.
